

UNITED IN PURPOSE

LIVE UNITED

Community Investment grant-making is central to how UWNCNM collaborates with other nonprofits and community partners. Thanks to donors and corporate partners, we were able to grant \$2,471,062 to support 69 nonprofits in four counties (Bernalillo, Sandoval, Torrance and Valencia) and \$250,000 in Santa Fe to 19 nonprofits in July 2023.

The Community Investment Fund grants focus and align our community around strategies designed to improve family stability and educational attainment. Impact Grants focus on education/youth development and family stability. Basic Needs Grants support needs such as food and shelter. Capacity Building Grants improve a nonprofit's ability to fulfill its mission.

Donor dollars do more when they are combined with others to create a deep pool of vital funding. Consider supporting Community Investment Grants with your donation – and be a part of something bigger for our community.
