## Making an impact in our community.

### Testimonial

“ The FAC has helped me become more confident. I feel like I'm moving forward, and I have a more optimistic outlook. I have taken some steps to get a counselor for both me and my daughter. I've also arranged for my older daughter to get some help with her ADHD and for my younger daughter to get some help with autism. I want to succeed not only for myself and my family, but also to show my gratitude for everyone who supported me through this.
