Ride United became Grandma Rosa's lifeline for medical appointments. These rides played a crucial role in her healthcare and well-being.

Grandma Rosa lives in the rural area of **Santa Fe County** with Alberto. Their car broke down leaving her with no transportation to her doctor's appointment. Her daughter told her about **Ride United**, a program that provides safe and reliable rides in her county.

Ride United is partially underwritten through a grant from MolinaCares.

“Ride United helped me because I didn’t have transportation. They helped me to get around for my pregnancy appointments, whether they were ultrasounds or doctor appointments and I thank you very much for that help.” —Tania H
